Preferred Customer Service Agreements

To offer you the best customer service and to take care of your residential HVAC needs, we have put together three simple packages. When you choose one of these Service Agreements below, you will be one of our Preferred Customers. This entitles you to priority service, parts discounts and help in preventing costly repairs.

Season Tune-ups & Semi-annual Equipment Check

Plan ahead. Regular maintenance can save you money, avoid catastrophes, improve air quality, and keep your family safe. When the seasons change, it's the perfect time to schedule a maintenance check-up to make sure your heating or cooling system will work all season long. The experts at Bennett Heating and Air Conditioning are ready to help you with any of your heating and cooling maintenance needs.

iWave

iWave is an air purifying device that installs in any duct air conditioning system. When air passes over the iWave, ions produced by the device reduce pathogens, allergens, particles, smoke, and odors in the air, creating a healthy environment without producing any harmful byproducts.

iWave uses patented technology, called needle-point bi-polar ionization, to create equal amounts of positive and negative ions. When these ions are injected into the air stream, they break down passing pollutants and gases into harmless compounds like oxygen, carbon dioxide, nitrogen, and water vapor.
